

Adventure of Smaland - Langö-Tomteholm - SE - 57002 Stockaryd

We at Adventure of Småland in Sweden are happy that you found us; we are a company that offers high quality accommodation for a broad spectrum of clients in the countryside of Småland. We are a nature eco-tourism oriented company with two specialties, which are fishing and canoe trips. We are situated at lake Rusken one of the most beautiful areas of southern Sweden.

## **Fishing in Sweden**

Lake Rusken offers top quality fishing for Zander, pike and Perch. With it's fairly big size there is no risk you have too fight for the fishing spots. Lake Rusken is also a quite shallow lake with an average depth of 3,5 meters with a few deep parts that goes down to 19 meters. Lake Rusken has allot of bottom structure that offers good fishing opportunities. Lake Rusken is most famous for it's Zanders that can be targeted with a number of techniques; the most common would be spin fishing, vertical fishing and trolling. Adventure of Småland rents fishing boats in lake Rusken, the boats are suitable for three anglers and are equipped with a 4 or 5 hp four stroke engine, rod holders, anchor, oars, nautical chart and life wests. The boat can also be equipped with an electrical engine and fish finder. All guests will get an introduction of how the boat and engine works.

Vrigstadsån is another lake that is situated at our fishing camp, Vrigstadsån is much smaller then Lake Rusken, which gives the angler an opportunity to fish even in windy conditions. Vrigstadsån offers fishing for Zander, Pike and Perch and is unique in that way that the lake is an old river, with the old river bed still running thro the lake. The lake itself is very shallow but the old river bed is between 6-8 meters deep, the lake is littered with old tree stumps and vegetation, this makes it very interesting to fish with flyfishing equipment or top water lures for pike and perch. For zander vertical fishing in the old riverbed is recommended. Adventure of Småland also offers boats in vrigstadsån with one difference, only electrical engines are allowed in vrigstadsån. Vrigstadsån also gives good opportunities for Coarse fishing.

Kalvsjön is also a lake near us, Kalvsjön is different from Rusken and Vrigstadsån in that respect that the target fish is brown trout and rainbow trout, it is an excellent lake for fly anglers but also for spin fishing. The lake is surrounded with beautiful nature and has great fishing platforms for easy excess to the water. Kalvsjön is only 10 minutes away and is a great destination for one day.

All guests at Adventure of Småland is offered a fishing introduction where we discuss
