## **Guided fishing excursions in Sweden**

We at Adventure of Smaland in Sweden offers guided excursions for our fishing guests. The trips are planned and framed together with you so we know that you get what you want. Most guide days are 5 to 6 hours and are normally taking place at early morning or afternoon and evening, this is to make sure we are on the water at the best possibly time. But this can be discussed with the clients to make sure you get what you want the guide day can be both longer and shorter. Most anglers want their guided trip to be focused around Zander but we also offer pike and perch fishing or a mix between the three. The guide will inform you what the best fishing method is at the time but are happy to try different techniques if you ask for it. To hire a guide is a wonderful way to learn the art of fishing, then you have a teacher and a person that knows where the fish are giving you the best chances there is to catch some fish. Another good thing for beginners or families that want to try out fishing and consider to hire a guide is that at Adventure of Smaland the guide will bring all the equipment you need, so you do not need to buy anything before the trip. For more experienced anglers a guided fishing trip offers you the knowledge you need to make your fishing vacation a success. You will get to know a lot of good spots and the methods and baits that work at that time. The Guide will work for you and do everything in his power to ensure a successful fishing day. If you want to try top water fishing for perch or spin fishing for pike we will make that happen, it is important for us that you get what you want from the guided trip.

At Adventure of Smaland most of the guiding's will be at lake Rusken. At lake Rusken the trip will take place on a typical American style fishing boat with good open space, 4 stroke engine, electrical motor, high quality fishfinder / chartplotter, rod holders etc. The Guide will also bring all the equipment and baits/lures that is needed. Maximum 3-4 guests.

At lake Vrigstadsån the guiding will be taking place from a smaller boat because of Vrigstadsåns unique characteristics, and because only electrical motors is allowed. The fishing in Vrigstadsån is no less interesting than Rusken it is only different.

It is also possible to place a day at lake Kalvsjön this is a perfect opportunity if you want to learn fly-fishing or even develop your already existent skill. Lake Kalvsjön is a beautiful lake not only great for experienced anglers but also perfect for families.

Mikael started to work

with us 2014. “ The first time I saw this place I was struck by its beauty, and I had heard by reputation the fishing was great but still challenging, I wanted to be apart of this operation and I have not looked back yet. This area give anglers great opportunities everything from the big water fishing at lake Rusken to the finesse fishing at Vrigstadsån. It really offers something for everybody and I am very happy to spend my days at this beautiful part of the world”. Mikael speaks off curse Swedish but also English and German. “ I try to have a relaxed view on the fishing at hand, to make the guest in my boat to feel like a part in a team and to have a family atmosphere so everybody feels welcome, because they are. The most important thing for me is that we catch fish and the guest fell happy with the excursion, there is no better feeling in the world than to se a big fish in the hands of my guest and an even bigger smile on the face of the angler. I hope we will meet on the water, and you should be sure to know you are more than welcome in my boat Tight lines or Petri Heil// Mikael “.
